## SUMMARY

Proven ability in analyzing large datasets, debugging SQL queries, and transforming data to drive business decisions. Proficient in creating compelling, interactive dashboards using Power BI, enhancing data accessibility and understanding. Strong Proficiency in SQL and Power BI, enabling efficient data manipulation and analysis. Proficient in market research, requirement gathering, and both qualitative and quantitative analysis

## SKILLS

- **Programming & Databases**:  Python (Pandas, Numpy), SQL server (Intermediate)
- **Visualization Tools:** Power BI, Tableau, Matplotlib, Seaborn
- **Analytics:** Data Cleaning, Exploratory Data Analysis (EDA), ETL, DAX, Descriptive Statistics
- **Tools & Technologies:** MS Excel (Pivot Tables, Charts, Functions), Jupyter Notebook
- **Business Skills:** Dashboarding, Reporting, Data Interpretation

## EXPERIENCE

**Data Analyst Job Simulation**                                                                                            August 2024
    **Deloitte – Forage**
- Analyzed production and quality datasets containing 50,000+ records to identify process improvement opportunities.
- Performed data cleaning, validation, and transformation using Excel and SQL to ensure data accuracy.
- Built interactive Power BI dashboards to monitor KPIs such as defect rate, downtime, and operational efficiency.
- Presented data-driven insights that supported decision-making and improved business processes.

## PROJECTS

**BLINKIT GROCERY SALES ANALYTICS DASHBOARD**                         Power BI, Power Query, DAX, Excel
March 2025
- Analysed Blinkit's grocery sales data using Power BI by cleaning and transforming data in Power Query, creating DAX measures, and building interactive dashboards.
- Tracked sales trends, top-selling products, and regional performance
- Enabled data-driven decisions by highlighting underperforming regions and boosting visibility into sales patterns, helping improve inventory and marketing strategies.

**VRINDA STORE ANNUAL REPORT**                                           Excel, Dashboard creation, Pivot Chart
November 2024
- Analysed Vrinda Store's 2024 sales data using Excel to create an interactive dashboard highlighting key trends, customer insights, and strategic recommendations.
- Uncovered a 10% year-over-year sales growth
- identified women aged 30–45 in Maharashtra and Karnataka as the top customer segment, driving targeted marketing insights.

## EDUCATION

**BSc Computer Science**

College of computer science and Information technology, Latur | Swami Ramanand Teerth university(SRTMU), Nanded    • July 2023- Present
